

THE LAKE SCHOOL IN OXFORD

On our journey to Oxford we had a one week intensive English course at the Lake School which is located in the city centre. School started at 9.15 a.m. and ended at 4 p.m. Between 1 p.m. and 2 p.m. we had time to go for a lunch. We had many opportunities nearby like sandwich or fast food restaurants. Additionally, there were even restaurants offering more qualitative food close to the school. Of course, the price was a little bit higher, but it was acceptable.

At first, we had to do a little test to split us into two groups. The lessons were held with a mixture of grammar, vocabulary and speaking exercises. Furthermore, we played a lot of language games and did creative tasks.

The school provided a big amount of services for us students. Coffee, tea and newspapers and wi-fi for free were available in the self-service student café. We also had the chance to study on our own in the self-study rooms with many appropriate working materials for everyone.
